July 23-27: Westerville

**Ask us about private BattleBot
events for schools, birthday
parties and scout badges**

In 10-20 years, your child will be competing for a job in a society dominated by science and technology.

At Robot Academy, we show kids that S.T.E.M. (Science, Technology, Engineering and Math) can be fun. Our students design, build, and program LEGO robots to complete challenges and win trophies and ribbons .

Kids sit with peers in their age group and build BattleBots, maze runners or other inventions. We have several unique camps available with expert help from world-champion LEGO robotics and Invention instructors.
