

HILLIARD BUS TRANSPORTATION REQUEST

As one school year ends, preparations for the upcoming school year are well underway.

In order to provide more fiscally responsible transportation options for all students, we are asking **parents/guardians of non-Hilliard school students** to request transportation services every year online. The process will allow us to streamline and possibly shorten bus routes for all students.

Parents/Guardians who have students attending a non-public school and would like to request school bus transportation by our district will need to process a Non-Public School Transportation Request. To do this, they should visit our website at www.hilliardschools.org. Select “Transportation Services” under the “Department” tab, then select “Non-Public School Transportation”.

Parents/Guardians of students attending a non-public school will need to complete this process on or before **Friday, July 20, 2018**, in order for the requests to be processed for the upcoming school year. Once this information is received, our transportation team will be able to begin preparing updated routes for all students within the district.

Routing schedules for non-public schools will be available on-line, Monday, August 13, 2018. You can find bus routes on-line at: www.hilliardschools.org/BusStop/privateschool.cfm.

Please contact the Transportation Services Department at 614-921-4700 with any questions.
